Innovation Policy and Governance, STI Policy Monitoring and Innovation for Inclusive Growth

Andrés Barreneche

OECD, Directorate for Science, Technology and Innovation, Paris

Abstract

The seminar will present the STIP Compass which is an initiative of the European Commission and the OECD to collect together in one place quantitative and qualitative data on national trends in science, technology and innovation (STI) policy. The portal supports the continuous monitoring and analysis of countries' STI policies and aims to become a central platform for policy research and advice supporting government officials, analysts and scholars. Data is freely accessible following the FAIR principles (Findable, Accessible, Interoperable, and Re-usable). The STIP Compass incorporates more than 500 interactive dashboards and provides a sophisticated search tool with smart filtering that facilitates policy discovery. These interfaces allow users to seamlessly query the database to identify country policies on a wide range of STI policy issues.
